### FEEL THE MAGIC OF POWDER SNOW

## SKI TOURS IN THE CARNIC AND GAILTAL ALPS

All around seclusion, tranquility, idyllic winter landscapes and loose powder snow - thanks to the special microclimate on the sunny side of Carinthia, fresh snow supplies come at regular intervals. Thus, there are perfect conditions for a ski tour in the Carnic and Gailtal Alps.

**GOOD TO KNOW:** Ski touring means immersing yourself in nature. Therefore, treat it with respect. You should also not disregard the proper treatment of wildlife when ski touring. It is best to follow the signposted routes and leave the animals their important retreat. This avoids unnecessary disturbance and stress and people and animals can enjoy the peace peacefully next to each other.

**SAFETY FIRST:** Safety on the mountain always comes first!  
Therefore, inquire before each ski tour about the snow and avalanche situation!

### RULES FOR SKI TOURERS ON THE SKI SLOPE

For safety reasons it is forbidden to walk on the ski slopes for pedestrians or ski tourers at any time of the day or night! In general, the ski slope is closed from 5 pm to 8 am. There is danger to life!

### TRAVELING SAFELY IN THE SUMMER & WINTER WORLD

## SAFETY ON THE MOUNTAIN

Whether alone or in a group, with family or friends: Hiking, mountaineering, climbing, via ferrata and mountain biking are among the most popular leisure activities in the Alps. However, every tour also harbors dangers - especially if they are poorly planned or not planned at all. Therefore: safety first!

So that you are always safe on the mountain,  
we have summarized the most important rules of conduct for you.
